AusIMM THE MINERALS INSTITUTE Adelaide Branch

Australian Society of Exploration Geophysicists

AUSTRALIAN INSTITUTE OF GEOSCIENTISTS

GEOLOGICAL SOCIETY OF AUSTRALIA

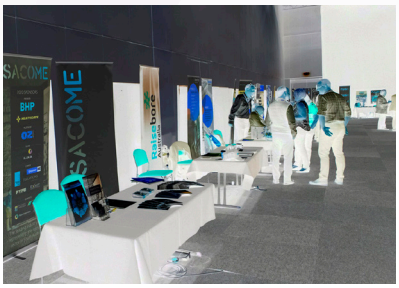
A chance to tell your story!

Given the lack of other opportunities to present your company's exploration and mining story this year, this is your chance to present, and to hear the successes.

Heralded as Australia's best value mining industry conference, this must-attend event for anyone doing business with the exploration and mining sector will be held on Friday 26th November 2021 at the Adelaide Convention Centre.

This unique conference is widely supported within the local exploration and mining community and provides the perfect platform to collaborate and network. The conference provides a great opportunity for companies to showcase their abilities and achievements through one of the sponsorship opportunities outlined in the attached registration form.

This well-attended one day conference provides a valuable update on significant mining industry developments in South Australia during the year. It includes technical sessions on New Companies, Exploration Projects, Feasibility Studies & Mining Operations, as well as extensive networking opportunities during the day.



18th South Australian Exploration & Mining Conference
Friday, 26 November 2021
Adelaide Convention Centre
